INTRODUCTION AND GENERAL INDEX

— — — — —

R. L. POLK & CO., publishers of more than 1,400 city and suburban Directories, presents to subscribers and the general public, this, the latest edition of the Mount Vernon City Directory, which also includes Knox County Rural Route Residents.

Confidence in the growth of Mount Vernon's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Mount Vernon to the world.

The enviable position occupied by R. L. POLK & CO.'s Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Mount Vernon Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:-

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Mount Vernon, the necessity of having this kind of information up - to - date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of Mount Vernon, and the name, official personnel, nature and address of each firm and corporation in the city. A special feature of this section is the listing of telephone numbers.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the

designation of owner occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

This publication also contains a Knox County Rural Route Directory printed on white paper immediately following the Numerical Telephone Directory.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. The publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Mount Vernon.

The Mount Vernon Directory Library

Through the courtesy of the publishers of the Mount Vernon City Directory, a Directory Library is maintained in the offices of the Mount Vernon Area Chamber of Commerce, for free reference by the general public. There are many of these Directory Libraries installed and maintained in cities and towns throughout the United States and Canada through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

The first white man known to have viewed the present site of Mount Vernon was John Stilley, who, when a captive among the Indians, traversed Owl Creek (present Kokosing River) from its mouth upward, in June, 1779.

The first white man to locate within the present Knox County limits was Andrew Craig, who came from the mountainous region of Virginia, and built his cabin close to the little Indian Field, located where Center Run enters the Kokosing River, on the southeastern edge of the city. Here he lived when Mount Vernon was laid out in 1805 by Joseph Walker, Thomas B. Patterson and Benjamin Butler.

One of the settlers, being from the region of the Potomac River and thinking of the consecrated spot on its shores, suggested that the town should bear the name of Mount Vernon.

The first settlers were from Virginia, Maryland, New Jersey and Pennsylvania, and many of the direct descendants of those hardy pioneers still reside in this locality.

A frequent visitor to the settlement in the early days was the famous character in Ohio history, known as Johnny Appleseed (John Chapman). He is given credit for planting some of the old apple orchards in the county, and at one time owned two lots in the original plot of the village. These lots were located at the end of S. Main St., next to the river.

Knox County, of which Mount Vernon is the county seat, is one of the richest agricultural counties in the state and leads in the raising of poultry, hogs and pure - bred sheep. It is the largest sheep - raising county in Ohio.

Mount Vernon is located on the Wheeling - Chicago division of the B&O/C&O (Chessie System) Railroad. It is also located on the ConRail, 90 miles from Cleveland and 45 miles from Columbus, giving daily direct connections to the great market centers. 16 motor freight lines give intra and interstate service, daily pick - up and delivery of air freight and express.

Mount Vernon has two banks and 3 building and loan associations.

The educational facilities of Mount Vernon are excellent with the seven elementary schools, the middle school and the high school which named their "Paul Lynde Theatre" for one of our former citizens, who is a well - known theatrical and TV personality. The

Knox County Joint Vocational School with courses covering high school subjects, business, trade and industrial skills (day - eve. classes). The Catholic and SDA grade schools are of a very high standard. The Mount Vernon Academy operated by the Seventh - Day Adventist Church at nearby Academia is well and favorably known, and draws students from all parts of the world. The Mount Vernon Bible College at Bangs has a theological education program. Five miles east at Gambier, is Kenyon College. It is Co - Educational as of 1969. Many of the most famous men in America life were graduated from Kenyon College, including President R. B. Hayes and Edwin M. Stanton.

Mount Vernon Nazarene College (now a 4 - year Liberal Arts College) opened in October of 1968.

Mount Vernon Senior High School

KNOX COUNTY JOINT VOCATIONAL SCHOOL

USERS AGREE . . .

- 1 The City Directory is the only record in existence that aims to identify every adult resident in your community with sufficient other information enabling you to select and contact your best prospects for sales and service.
- 2 The City Directory's Street Directory is again the only "complete" Street Directory of all streets and residences in your community and, therefore, is the only sure way to identify everyone in a given area or on a given street.
- 3 The City Directory is unequalled when used for verification of information by your sales, service and office personnel and is considered a virtual necessity by most business and professional firms.
- 4 The City Directory pays back its cost many times over when used intelligently in the daily conduct of business by those in your firm who come in contact with your customers and prospects or have anything to do with processing information about them.

PRESTIGE ADVERTISING

By having and using your own copy of the local City Directory, you can positively identify—and reach—the kind of person, business firm and family that are most likely to be in the market for the type of product or service that you sell. Through the City Directory you'll be reaching the individuals and businesses with the top purchasing power in your community . . . those who consistently buy when they want to buy, not when they have to.

By advertising in your local City Directory, you can make sure these same people can identify and locate YOU.

You join with the backbone of your community business life: you become an integral part of the permanently established, successful firms in your community when you advertise in your local City Directory. This is prestige advertising without the financial penalties normally associated with prestige advertising.

YOUR CITY DIRECTORY— AN INVESTMENT—A BUSINESS TOOL

That will return tremendous dividends in the effective and efficient operation of your business when used intelligently. Be certain that everyone in your organization is carefully instructed and thoroughly familiar with the information it contains and how to use it. To assist you, the publishers have included detailed instructions on the opening pages of each of the four Directories which should, in a general way, familiarize each user with its contents and applications.

Also, should you desire additional copies of these instructions, please write the publishers at the address in the front of your Directory.

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is
circulation consulted.

TO BE EXACT by actual survey in twenty-four
average American cities by actual count
each City Directory averaged three and
one-half consultations for each business
day.

TO BE CONSERVATIVE we will eliminate the
sixty Sundays and Holidays when no
tests were made.

FOR EVERY THOUSAND DIRECTORIES sold
there will be an average of three and
one-half consultations for each book for
THREE HUNDRED and FIVE days, there-
fore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

NUMERICAL TELEPHONE DIRECTORY

BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numerical sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the name of the subscriber—with this information combined with other sections of your City Directory you may quickly establish such information as wife's name, place of employment, job title, home address, business address and telephone number.

CITY DIRECTORY ADVERTISING IS *National* ADVERTISING

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

*Therefore your ad in the City Directory
is seen by buyers from coast-to-coast*

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America
